# Fundamental Problems of UPSC Prelims

## Too Much to Study, Too Little Time

8 Subjects + Current Affairs + Tests and then revising it all one more time but you only have about 150 days.

## The "CSAT Trap"

Why Good Students Fail: Passed in GS but failed in CSAT

## Studying All Alone - With No Lighthouse

Hardwork in wrong direction always leads to frustration

## Reading Without Understanding

You watch lectures and read books, but you also start forgetting what you read as soon as you shift to another subject.

## The Current Affairs Villain

UPSC asks questions about things that happened a year ago. How do you even cover every such news in 5 months?

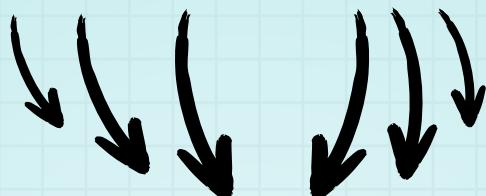

## Fear of the Exam Day

Knowing the answers isn't enough if you panic during the exam, you end up wasting a whole year of effort.

Today

It was a very good session today. Previously, I had watched all of your recorded NCERT classes, but today I joined the live class for the first time, and it was truly amazing. I chose History as my optional subject because ever since I started watching your classes, the concepts became much easier to understand. After attending your classes, whenever I read the chapters, I find them very simple and clear.

I was eagerly waiting for the live sessions of Modern History, and today's class really motivated me. Also, thank you so much for taking my name when I mentioned that I am from Chandannagar – it meant a lot to me.

Thank you once again, Sir. 9:11 PM

Hi sir.  
This is Shashank from essential 2026 batch.

First of all thank you so much sir for making the economy easier. I'm the one who was scared of economy, struggling to understand the concepts earlier but the Indian economy handbook made the life easier, helped me to understand the subject, thanks to the layman language of the book.

In addition to this the economy basic lecture series helped me to understand the concepts with even more clarity.  
Looking forward to the economy advance lecture series.

Thank you once again sir.

Dear ma'am, Good morning.  
I hope you are doing well

Yesterday I was unable to attend the live lecture, now I just ended up watching the recorded one. I must say I really like the way you teach , it comes with so much clarity of concepts and an appropriate understanding.. I really like the way you teach with the depth .  
I really request you to take up the IR lectures too , will surely love to study under your guidance.

Thank you so much ❤  
Warm regards, Isha 😊
